

Samarakoon Mudiyanseelage Sanaj Bandara Samarakoon**Date of Birth:** 1 May 1996**Gender:** MALE**Nationality:** Sri Lanka**Languages:**

- English – Fluent (spoken and written)
- Sinhala – Basic native proficiency

Interdisciplinary professional with a BSc in Physics and an MBA, currently transitioning into software engineering. Bringing over 5 years of experience managing technical and administrative operations across diverse industries including construction, energy storage, solar energy, electric fencing, and plantation management. Passionate about leveraging technology and systems thinking to solve real-world challenges, driving improvements in productivity and efficiency.

Motivated to become a junior software developer, building on a strong background in project management, operations, and entrepreneurship. Currently transitioning into full-stack development with proficiency in Python, C, and web technologies (HTML, CSS, JavaScript), developed through Harvard University's CS50 curriculum. Known for strong problem-solving skills, a proven track record of delivering results under pressure, and a deep commitment to continuous learning. Eager to contribute to impactful software teams by building scalable, user-focused applications.

EDUCATION

Master of Business Administration (MBA) | DEC 2021 – DEC 2024

University of Colombo – Sri Lanka

GPA: 3.19

- Developed analytical and decision-making skills through coursework in **Business Statistics, Managerial Economics, and Business Analytics**, applying data-driven models to solve complex operational and financial problems.
- Enhanced leadership and strategic thinking via courses such as **Organizational Leadership, Project Management, and Business Strategy**, with emphasis on cross-border operations and managing teams in high-stakes environments.
- Explored modern business tools and systems through subjects like **Information Management Systems, Supply Chain Development, and Crisis & Disaster Management**, gaining exposure to integrated processes and enterprise-wide decision flows.

Bachelor of Science in Physics (BSc Physics) | AUG 2015 – MAY 2019

Rollins College – Florida, USA

GPA: 3.18

- Developed strong problem-solving and modeling skills through advanced coursework in **General Chemistry, Mechanics, Quantum Physics, Thermodynamics, and Electromagnetic Theory**, with lab experience in **Physical Chemistry, Experimental Optics and Modern Optics**.
- Gained foundational experience in computational techniques and scientific programming through **Computational Physics**, applying code to simulate physical systems and analyze experimental data.
- Explored interdisciplinary links between physics, environmental sustainability, and communication via courses in **Sustainable Agriculture, Business and Sustainability, and Public Speaking**, enhancing systems thinking and technical communication.

International Baccalaureate (IB) Diploma | JAN 2004 – MAY 2014

Overseas School of Colombo – Sri Lanka

- Completed Higher Level studies in **Physics, Chemistry, and Economics**, alongside CAS projects that developed leadership, creativity, and community engagement through sustained extracurricular and service activities.

CERTIFICATIONS & COURSES

CS50 – Introduction to Computer Science | JAN 2025 – AUG 2025

Harvard University – edX (Online)

- Learned foundational computer science concepts, including algorithms, data structures, memory management, and problem-solving techniques.
- Gained proficiency in C, Python, SQL, and web technologies (HTML, CSS, JavaScript).
- Completed projects involving game development, data analysis, and full-stack web applications.

Water Management SEWSS | JUN 2015 – AUG 2015

Stanford University – California, USA

- Standard Environmental & Water Studies Summer Program (SEWSS)
- Participated in an intensive summer program focused on sustainable water management, conservation strategies, and policy frameworks.
- Engaged in lectures, field visits, and collaborative workshops with students and experts in environmental science and engineering.

PROFESSIONAL EXPERIENCE

Management Consultant | MAY 2025 – Present

GreenTips Plantations (PVT) LTD – Colombo, Sri Lanka

- Manage operations over 200 acres under cultivation across 4 farms.
- Advise on process improvements, labor optimization, and cost control strategies.
- Secure sales contracts for bulk coconut supply with factories.
- Facilitate Human Resource outsource with 3rd party service providers for payroll, employee lifecycle management, and statutory payments.
- Coordinate financial audit with external auditors.
- Document and account all bank transactions (inflows and outflows).

Business Development Manager | APR 2022 – AUG 2025

Sunpower Systems (PVT) LTD – Colombo, Sri Lanka

- Led a trading department for Electric Fences and Access Control solutions.
- Built partnerships with installation providers and distributor networks.
- Developing tailored proposals and presentations for prospective clients

Director/CEO | DEC 2019 – MAY 2025

GreenTips Plantations (PVT) LTD – Colombo, Sri Lanka

- Managed day-to-day operations and long-term strategy for over 200 acres multi-farm cultivation.
- Reduced losses by streamlining supply chains, reducing input costs, and implementing sustainable practices.
- Secured sales contracts for bulk coconut supply with factories.
- Introduced labor contracts to improve efficiency and labor productivity.

Project Manager | NOV 2021 – MAR 2022

Sunpower Constructions (PVT) LTD – Colombo, Sri Lanka

- Preliminary Work for Government Tender – Maga Naguma Roads Construction Project consisting of following:
 - 16 km of Rural Concrete Roads in Ampara, Sri Lanka.
 - 10 work orders covering 34 roads in Ampara District
- Prepared financial budget and project plan in collaboration with project engineer and technical team.
- Prepared manpower and material procurement schedules.

Assistant Project Manager | MAY 2021 – OCT 2021

Sunpower Systems (PVT) LTD – Colombo, Sri Lanka

- Government Tender – Department of Wildlife Conservation Electric Fence.
- Coordinated construction of 123 km electric fence and 15 energizer huts for the Department of Wildlife Conservation.

Assistant Project Manager | JUL 2020 – APR 2021

Sunpower Systems (PVT) LTD – Colombo, Sri Lanka

- Private Tender – Dialog PLC & Enersys Full Turnkey Implementation of VRLA Battery Storage
- Managed the installation & commissioning of 1,088 Base Station Sites & 37,000 Batteries (44.4 MWh of Storage).
- Facilitated import logistics from Singapore, site-level dispatch, and installations in remote terrain.
- Managed billing process for two (2) clients, Dialog PLC and Enersys.

Business Development Executive | DEC 2019 – JUL 2020

Sunpower Energy Systems (PVT) LTD – Colombo, Sri Lanka

- Established after-sales division for solar services, including panel cleaning and performance reports.
- Developed legal agreements in collaboration with lawyers to support ongoing service contracts.

OTHER EXPERIENCES

Intern | JUN 2018 – JUL 2018

AW-Energy Oy – Vantaa, Finland

- Conducted data analysis for potential WaveRoller installation sites across coastal regions.
- Created visual reports and identified future energy trends for a proposal to the Sri Lankan government.

Trainee | MAY 2006 – MAY 2014

GreenTips Plantations (PVT) LTD – Colombo, Sri Lanka

- Gained practical exposure to large-scale coconut estate operations through estate visits and hands-on work.
- Participated in traditional paddy field rice cultivation using flood irrigation methods.
- Assisted in intercropping practices with pepper and pineapple under coconut canopies.

Service Team Member & Translator | AUG 2013 – APR 2014

SOS Orphanage – Colombo, Sri Lanka

- Member of student-led service initiative at the Overseas School of Colombo.
- Taught basic mathematics, computer literacy, and swimming to children in the SOS Orphanage program.
- Supported communication and translation between volunteers and children during activities and workshops.

Service Team Member & Translator | AUG 2010 – JUN 2013

Hope for Kids – Colombo, Sri Lanka

- Member of student led service organization at the Overseas School of Colombo for children's cancer hospital.
- Helped fund and operate the children's wing at the local cancer hospital by organizing awareness and fundraising events.
- Contributed to donation drives for books, toys, and medical expenses.

SKILLS

Lab & Fabrication

- **Chemistry Lab:** Experience operating spectrometers, bomb calorimetry, apparatuses solvent extraction, titration and fermentation.
- **Woodworking:** Experience operating band saws, table saws, planers; basic knowledge in joinery, lamination, gluing, and clamping techniques.
- **Welding & Metal Work:** Experience operating SMAW (stick welding), setting up gas cutting system, and surface preparation using grinders.

Software & Digital Tools

- **Microsoft Office Suite:** Advanced proficiency in Excel (formulas, pivot tables, charts), Word, PowerPoint, and Project.
- **Video Editing:** Proficient in Cap Cut for content creation and professional presentations.
- **ERP Systems:** Experience using SAP and QuickBooks for procurement, inventory, and accounting operations.
- **CAD & Design:**
 - AutoCAD – Used for solar planning, estate infrastructure layouts, and Agri-mapping.
 - SolidWorks – Basic to intermediate proficiency for prototyping and 3D print preparation.

Finance & Operations

- **ATRAD Trading Platform:** Proficient in executing trades and monitoring portfolios on the Colombo Stock Exchange.
- **Corporate Online Banking:** Experienced in handling multi-account platforms, bulk transfers, and payroll/statutory submissions.

Software Engineering

- Languages: C, Python, SQL, HTML/CSS, JavaScript
- Frameworks: Bootstrap, Flask
- Terminal: Linux/Unix Command Line (basic knowledge)
